

Electrical Power Transformer Engineer

This is a fantastic opportunity for an experienced Transformer Engineer to join an established family owned business based in Leeds. Wilson Power Solutions are a leading manufacturer and supplier of electrical power distribution equipment and pioneers of super low loss amorphous transformer technology. Our flagship product saves money, saves energy, cuts carbon and offers an innovative solution to the worldwide challenge of reducing energy wastage.

The Role:

Reporting to the TL Operations your duties will be a combination of in-house production fitting & assembly work & Site-work assembly of **"POWER TRANSFORMERS"** including fitting, wiring & test at site.

Key areas include:

- In-house fitting and assembly of various types of distribution and power transformers
- You will prepare work to be accomplished by studying assembly instructions, blueprint specifications, and parts lists; gathering parts, subassemblies, tools and materials.
- You will assemble components by examining connections for correct fit; fastening parts and subassemblies
- You will be required from time to time to travel to third party sites both in the UK and abroad to build up the equipment and test.
- You will ensure that all equipment is assembled and tested to the highest standard
- You will read and understand mechanical and schematic drawings.
- You will use general workshop machinery and hand tools related to the role
- Identify and work with others to resolve inadequate or unclear manufacturing/engineering information.
- To work unsociable hours when required to meet WPS demands, including site work as required.
- To work abroad on special projects if the need arises.

Skills, Knowledge & Experience:

- Experience and competence of working on site fitting **power transformers is essential**
- Hands on experience of working within a mechanical/electrical engineering environment is essential
- The ability to understand mechanical and schematic drawings is essential
- A mechanical or electrical qualification is desirable
- Experience of Health & Safety and conducting risk assessments is essential
- You will have good written and verbal communication skills, with the ability to liaise with customers and resolve issues in a proactive and positive manner
- Strong attention to detail skills
- You will be flexible and adaptable and be prepared to attend site at short notice which may be outside your normal working hours
- Experience of working collaboratively with other operations personnel with the ability to train and enhance your work colleagues' skills.
- Ideally experience of working within a continuous improvement environment
- Ideally have up to date training on Overhead Crane/Slinging Lifting certification
- Ideally have an FLT licence
- ESC accreditation is essential
- Ideally IPAF certification
- Full UK driving licence is essential

Salary and benefits:

- Salary negotiable
- 25 days holiday per year plus bank holidays
- Company Bonus Scheme
- Healthcare scheme
- Pension
- Free Parking on site

Please email your CV along with a covering letter detailing your current salary to the HR Manager, hr@wilsonpowersolutions.co.uk. All applicants must be able to demonstrate their right to work in the UK.
