

PANEL WIRER/FITTER

This is a new and exciting opportunity to join our team to support the continued growth of an established family-owned business in Leeds. Wilson Power Solutions are a leading manufacturer and supplier of electrical power distribution equipment and pioneers of ultimate low loss amorphous transformer technology. Our flagship product saves money, saves energy, cuts carbon and offers an innovative solution to the worldwide challenge of reducing energy wastage.

The Role:

- Your duties will be the fitting of various types of distribution and power transformers along with the wiring and assembly of components for the marshalling department from scratch
- Preparing work by studying assembly instructions, reading and interpreting electrical layout drawings and schematic wiring, parts lists, gathering parts, subassemblies, tools and materials
- Assembling components by examining connections for correct fit; fastening parts and subassemblies
- Crimping, looming and cable terminating work on control panels
- Glanding and terminating various SWA cables
- Cutting and fitting tray work to run cables on transformers
- Soldering
- You will be expected to maintain the highest level of workmanship standards and product quality ensuring products are produced and delivered OTIF to the customers' requirements
- You will check and complete all paperwork associated with the works order
- Performance of area housekeeping activities, including the prompt reporting of problems shortages or equipment breakdown
- Using general workshop machinery and hand tools related to the fitting role
- Completing work within allocated time scales

Skills, Knowledge & Experience:

- Hands on experience of electrical assembly and wiring of control panels is essential
- Hand on experience of working within a mechanical/electrical engineering environment is essential.
- Cable end termination experience (Crimping/soldering) is essential
- Hold electrical qualifications and have knowledge of electrical regulations is essential
- The ability to understand electrical schematic drawings is essential
- Have good written and verbal communication skills
- Experience of working collaboratively with other operations personnel
- Ideally experience of working within a continuous improvement environment
- Strong attention to detail
- Good communication skills
- Flexibility to assist in other departments when required

Salary and benefits:
