

PROCESS ENGINEER

This is a new and exciting opportunity to join our team to support the continued growth of an established family-owned business in Leeds. Wilson Power Solutions are a leading manufacturer and supplier of electrical power distribution equipment and pioneers of ultra-low loss amorphous transformer technology. Our flagship product saves money, saves energy, cuts carbon and offers an innovative solution to the worldwide challenge of reducing energy wastage.

What's the job:

As Process Engineer you will be responsible with the optimisation and improvement of the industrial processes for Transformer Fitting Operations at Wilson Power Solutions.

Key Responsibilities

- Analysis of the existing process and improvement by implementing solutions to enhance operational performance
- Time Studies for different operations on the shop floor
- Create Routings for different product types or product families
- Support Production Planner with scheduling, releasing Works Orders and ensuring all documentation has been uploaded correctly in MRP / SharePoint.
- Work with Contracts and Engineering to ensure that the technical documentation is correct and updated when required
- Ensure compliance with Safety, Environmental and Regulatory Requirements in all industrial activities
- Update the Contracts and Production teams on any changes or possible issues
- Participate in Continuous Improvement activities and LEAN workshops
- Attend relevant meetings to ensure production flow is efficient and to schedule.
- Identify root cause of any issues and implement corrective actions.
- Continually review and update data input in MRP (logins on jobs, operation confirmations)
- Participate in Continuous Improvement and CAPEX Investment Projects

Skills, Knowledge & Experience:

- Over 2 years' experience in process engineering in manufacturing environment
- Knowledge of LEAN methodologies
- Experience of working with transformers is desirable
- Experience in process improvement
- Excellent I.T. skills with working knowledge of Microsoft Excel
- Experience working with ERP / MRP systems
- Flexibility to adapt to change
- Good attention to detail
- Ability to work to strict timelines
- Continuous improvement capabilities
- Good interpersonal skills with a 'can-do' attitude

Salary and benefits:

- Salary negotiable dependant on experience
- 37.5 hours per week, office based
- 25 days holiday per year plus bank holidays
- Company Profit Share Scheme
- Healthcare scheme and Employee Assistance Programme
- EV salary sacrifice scheme
